WASEL — F4 — Outbound Message Templates

24 ready-to-review templates · 4 message types · 3 languages · with/without customer name

Purpose. A controlled message bank for seller follow-up. Use the appropriate template only when its condition is met; a template is a draft for human review, not an automatic send.

Placeholders. {first_name} = customer first name · {product} = product · {price_tnd} = price in TND

Use conditions. T_CONFIRM: medium risk; include product and price; exactly one yes/no question. T_ADDRESS: request street name and house number; exactly one yes/no question. T_PREPAY: only for high risk and price ≥ 250 TND; state payment is before delivery; exactly one yes/no question. T_ACK: acknowledgement only; no question.

Review note: Tunisian phrasing should be checked by a native speaker before recording or deployment. Keep the price and product consistent with the order record. Do not send T_PREPAY outside its stated condition.
